## The Undisputed Leader in Medicinal Chemistry

*Journal of Medicinal Chemistry* is the most-cited and highest impact original research journal in Medicinal Chemistry with 52,858 total citations in 2010 and an Impact Factor of 5.207 as reported in the 2010 Journal Citation Reports® (Thomson Reuters, 2011). Complementing this journal is *ACS Medicinal Chemistry Letters*, which publishes quick, condensed reports on all aspects of pure and applied medicinal chemistry and their applications to pharmacology.

View the most read articles from each journal below:

### Synopsis of Some Recent Tactical Application of Bioisosteres in Drug Design

Nicholas A. Meanwell

DOI:10.1021/jm1013693

### The Medicinal Chemist's Toolbox: An Analysis of Reactions Used in the Pursuit of Drug Candidates

Stephen D. Roughley, Allan M. Jordan

DOI:10.1021/jm200187y

### Progress in Structure Based Drug Design for G Protein-Coupled Receptors

Miles Congreve, Christopher J. Langmead, Jonathan S. Mason, Fiona H. Marshall

DOI:10.1021/jm200371q

### Improvement in Aqueous Solubility in Small Molecule Drug Discovery Programs by Disruption of Molecular Planarity and Symmetry

Minoru Ishikawa, Yuichi Hashimoto

DOI:10.1021/jm101356p

### A Medicinal Chemist's Guide to Molecular Interactions

Caterina Bissantz, Bernd Kuhn, Martin Stahl

DOI:10.1021/jm100112j
